## How Does Affiliate Marketing Work?

Affiliate marketing works on a simple principle: you promote a product or service, and if someone clicks on your link and makes a Free Download, you earn a commission.

There are three main players in affiliate marketing:

- **The merchant:** The business that sells the product or service
- **The affiliate:** The person who promotes the product or service
- **The customer:** The person who buys the product or service

When a customer clicks on an affiliate link and makes a Free Download, the merchant pays the affiliate a commission.
