

The Oxford Encyclopedia of the Civil War: A Comprehensive Guide to the Defining Conflict of American History

The American Civil War was a watershed event in American history. Fought between 1861 and 1865, the war pitted the Union, consisting of 23 loyal states, against the Confederacy, consisting of 11 states that had declared their secession from the Union. The war was fought over the issue of slavery, but it also had a profound impact on the American economy, society, and political system.

The Oxford Encyclopedia of the Civil War is the definitive reference work on this pivotal conflict. With over 2,500 articles written by leading scholars, the Encyclopedia covers every aspect of the war, from the political and military to the social and economic. The Encyclopedia is an essential resource for anyone who wants to understand the American Civil War and its impact on American history.

The Oxford Encyclopedia of the Civil War offers a number of features that make it the most comprehensive and authoritative reference work on the conflict:
